

RETHINK YOUR DRINK KIT

Choose Water

GIVE THEM THE FACTS

The ReThink Your Drink Kit is a great way to highlight how much sugar is in the drinks people consume every day. The display is easy to set up and impacts viewers of all ages by showing how much sugar is affecting their oral and overall health.

LET'S NOT SUGAR-COAT IT!

Sugar-sweetened beverages (SSBs) are beverages with added sugar. These drinks include soda pop, juice and fruit drinks, sweetened teas or coffees, flavored waters, chocolate milk, and sports and energy drinks.
